## DETAILED ACTION

### *Continued Examination Under 37 CFR 1.114*

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on August 03, 2007 has been entered.

### *Reason for Allowance*

2. Claims 2-4, 6-11 and 16-21 are allowed and renumbered as 1-15.

The following is an examiner's statement of reasons for allowance:

The present invention relates to a head mounted display system that display a real image corresponding to a position of a display unit superimposed with another image. The superimposed image is displayed at a position that does not disturb observation of a real image. The closest prior art of Lemelson et al. (U.S Patent No. 6,847,336) discloses similar system with also displays real image and superimposed image. However, Lemelson fails to disclose inter alia:

a memory for holding a pair of the text information and time information indicating a display timing of the text information, and

wherein said composition unit switches the text information to be displayed on the display region in accordance with the time information held by said memory (claim 6).

wherein said determination unit comprises: a setting unit for setting a space region for displaying the other image in the real space; and

a conversion unit for converting the space region set by said setting unit into the display region on said display unit on the basis of a position and posture of the user. (claim 7)

a gesture detection unit capable of detecting a predetermined action of the user, and wherein said composition unit controls to turn on/off display of the other image in response to a predetermined action detected by said gesture detection unit. (claim 8)

In addition, claims 16-21 are allowable as being method claims of associated apparatus claims 2-4 and 6-11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
